NIGHT VISION SYSTEMS

ATILLA-750 GREEN LASER

Rev. 21 Mar 2013

Acquired Tactical Illuminating Laser Aimer

GREEN Visible Aiming Laser and IR Illuminator

The ATILLA is a covert GREEN visible laser (VIS) and infrared (IR) illuminator/aimer for individual or crew-served weapons. The user may adjust ATILLA's visible laser and infrared illuminator/aimer beam intensity to best suit the lighting condition, target contrast and range. The projected beams may be selected as steady, fast or slow pulsing modes.

The infrared illuminator/aimer provides a covert augmenting light for night vision operations in extremely dark environments. In addition, the powerful infrared illuminator/aimer beam can be narrowed to provide a target or point of interest to other NVG equipped personnel. The rugged design of the ATILLA ensures continued operation under heavy recoil.

FEATURES*

- **Visible Green Laser**
- **Multiple Aimer and Illuminator Mode Selections**
- **Separate Variable Output Power on Visible Aimer and IR Illuminator/Aimer**
- **Fail Safe And Eye Safe Training Switches**
- **Low Battery and Laser On Indicators**
- **Integrated MIL-STD-1913 (Picatinny) Mount System**
- **Local and Remote Interchangeable Power Switches**
- **Switches are Easily Discernible In Low Light or with NVGs**

NIVISYS

ATILLA-750 BASIC KIT:

- ATILLA-750 Aimer/Illuminator
- Barrel Mount Kit
- Full Power Remote Switch (black)
- Full Power Paddle Switch (black)
- Remote Switch (blue - training)
- Paddle Switch (blue - training)
- AA Lithium Batteries (2ea.)
- Quick Reference Card
- Operator Manual
- Hard Case
- Soft Case
- Lens Cleaning Paper

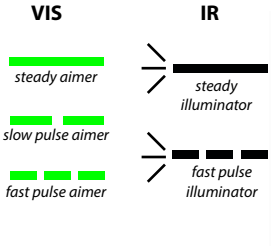
FEATURES

Adjustment Knobs
Windage and elevation adjustments are designed with tactile feedback for every click.

Variable Output Power
The unit delivers separate power settings for the illuminator and the laser.

Training Switches
The ATILLA kit is supplied with fail-safe and eye-safe switches for training applications.

Integrated 1913 Mount
The ATILLA is equipped to fasten to any standard Picatinny railing system.



Multi Mode
Multiple modes for the illuminator and aimer including steady and pulsed.

SPECIFICATIONS*

Size (L x W x H)
144mm x 80mm x 64mm
(including paddle switch)

Weight
341g
(with batteries and integrated mount and paddle switch)

Mounting Provisions
MIL-STD-1913
(Picatinny, Integrated throw lever mount)

Laser Output
30mW max (VIS)
150mW max (IR)

Laser Class
3B (VIS)
3B (IR)

Beam Wavelength
532 nm (GREEN Visible)
830 ± 20 nm (IR)

Beam Divergence
0.5mR max (VIS)
1.0mR to 200+ mR max (IR)

Beam Modulation
Continuous Wave
slow pulse: 3Hz
Fast pulse: 6Hz

Beam Shape
Circular (VIS)
Circular (IR)

Azimuth & Elevation Adjustments
0.25mR per click

Power Source
AA lithium (2ea.)

Environmental
0˚ C to +50˚ C (operating temp.)
-40˚ C to +71˚ C (storage temp.)
